16 April 1982

NOTE FOR: Director of Central Intelligence

SUBJECT : NSC Meeting on Central America and the  
Caribbean -- Latest Schedule

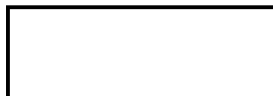

This afternoon I was invited to attend a meeting of the NSC Core Management Group on Central America to be held on Monday, 19 April at 6:00 pm. I have also notified Mr. Clarridge of this meeting.

Current intentions are to use the existing materials prepared by CIA, State, and Defense in order to complete a final Core Group draft by cob Thursday, 22 April. The NSC meeting would then take place on Friday, 23 April.

I have read the DDI/ALA drafts of 14 and 15 April on "Prospects for Stability in the Caribbean Through 1984". Although I am in general agreement, I have a few different and additional perspectives. Perhaps we can discuss this and my brief paper on Monday, 19 April.
